Empowered. Trusted. Valued.

## PROJECT AND PROGRAM MANAGEMENT CAPABILITY

### PM DOMAINS

Air

Maritime

Land

Joint

### OUR BACKGROUND

Established in 2014, AeroPM Pty Ltd is a consulting firm that engages across the private, government and military sectors. Based in Canberra, the company works with its clients Australia-wide to deliver a range of complex technical projects. AeroPM personnel are highly qualified and customer focussed authentic leaders, trained to perform in complex strategic environments.

### OUR CAPABILITY

AeroPM has established strong expertise in the Project Management (PM) discipline across the Air, Maritime, Land and Joint domains. Our capabilities encompass the full range of PM activities across all phases of the Capability Life Cycle (CLC) utilising contemporary PM methodologies. Our personnel have specific experience and expertise in introducing new Defence capabilities into service, through integration of Fundamental Inputs to Capability, in addition to project and program planning and management functions.

### PM EXPERTISE

Strategy Development

Budget Management

Acquisition / Support RFTs

Stakeholder Engagement

The AeroPM team have extensive experience with leading and managing complex Defence Projects and Programs across all phases of the CLC. In support of respective Government approvals for major capital acquisitions, our PM specialists have developed Project Execution Strategies, Integrated Project Management Plans, Business Cases, Cost Models, Integrated Master Schedules and Work Breakdown Structures. Our PM specialists also have significant experience in Request for Tender (RFT) development, evaluation and negotiation across the full ASDEFCON suite (Complex, Strategic and Support).

AeroPM team have substantial experience in managing the delivery of Prime Contractors execution of contract deliverables during all phases of a project. This includes performance management of contracts, review and approval of PM Data Items including Earned Value Performance Report, Australian Industry Capability and Intellectual Property. Our PM specialists are experienced in managing scope changes including assessments of capability, schedule, budget, risk and quality impacts. Our personnel have significant experience in developing project documentation including Section 23 submissions for Complex and Strategic procurements.

AeroPM has a number of PM specialists who are ex-military and public service personnel, with significant collective knowledge of current policies governing the PM application in Defence projects. Our specialists have post-graduate masters level qualifications in PM and business administration, in addition to being accredited as Certified Practising Project Managers (CPPM) with the Australian Institute of Project Management (AIPM).

Our PM specialists have helped plan and deliver a number of Defence Capability Acquisitions and Sustainment. This includes AIR 8000 *C-27 Battlefield Airlift Capability*, *Special Purpose Aircraft Replacement*, *Multi-Tactical Data Link Network (MTN) Sub-Program*, JP 9111 *Joint Command and Control*, LAND 154 *Counter Improvised Explosive Device (IED) Capabilities*, LAND 2072 Phase 2B *Integrated Battlespace Telecommunications Network* and SEA 1180 Phase 1 *Offshore Patrol Vessel*.
